Background: As part of the 2013 approval of the NBCUniversal Evolution Plan, the County of Los Angeles required the establishment of a Community Advisory Panel (CAP) to foster communication about ongoing operations within the Universal Studios Specific Plan Area and to allow the community to provide input to the County and NBCUniversal regarding ongoing operations at Universal City. The CAP includes two representatives from each of the six homeowner groups nearest Universal City. The CAP meets quarterly, and the first meeting each year is open to all members in good standing who belong to the participating organizations.
